

NEW CA CHILD PASSENGER SAFETY SEAT LAW 2012

A change to California's Child Passenger Safety Seat law now requires children to ride in either a car seat or booster seat until the age of eight, or until they reach a height of 4 feet 9 inches. This law also requires children who do not meet the age or height requirement to **ride in the rear seat** of a vehicle unless the vehicle has no back seats, the restraint system cannot be properly installed or the rear seats are already occupied by children under age eight. However, the law still maintains that a child may not ride in the front seat of a vehicle with an active passenger airbag if they are under one year of age, less than 20 pounds, or riding in a rear-facing child safety seat.
